PROFESSIONAL EXPERIENCE

Software Developer — Abhinav DigiCompSoft Pvt. Ltd.

July 2024 – Present

- Architected and delivered end-to-end web and desktop applications spanning manufacturing, hospitality, billing, and education sectors.
- Collaborated in fast-paced agile teams to prototype, develop, and deploy production-ready systems meeting strict business requirements.

Software Developer Intern — Abhinav DigiCompSoft Pvt. Ltd.

Jan 2024 – April 2024

- Developed a full-featured Social Media Platform using MERN Stack and GraphQL for efficient client-server communication.
- Implemented secure user authentication, post creation workflows, and real-time feed updates.

KEY PROJECTS & ENGINEERING WORK

1. LED Estimator — Desktop & Web Applications

Tech Stack: C#, .NET Framework (Desktop) | Node.js, CodeIgniter 4 (Web)

- Desktop Application:** Built a native C#/.NET tool to process vector graphic files (.EPS, .PDF) and automatically calculate LED modules, power supply requirements, and generate precise Bill of Materials (BOM).
- Web Application:** Developed a backend-driven web solution in Node.js with CI4 frontend, implementing full multilingual internationalization (i18n) across 5 languages (English, French, Spanish, Portuguese, German).

2. Muktai Kitchen — Hotel Counter Management System

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Engineered a fast-track hotel counter management platform delivered in a rapid 2-sprint execution cycle.
- Implemented real-time token generation, raw material cost tracking, daily cash flow logs, and EOD financial reconciliation.

3. Sai Controls — Enterprise CRM & Production Floor Control (PPC)

Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Developed an end-to-end manufacturing suite featuring Customer Relationship Management (CRM) and Production Planning & Control (PPC).
- Automated shop floor workflows, order progress tracking, and inventory allocation for industrial operations.

4. Abstract Management System — Abhinav Pharmacy College, Narhe, Pune

Tech Stack: Node.js, Express.js, PostgreSQL, EJS, Razorpay API

- Designed an academic seminar registration and abstract submission platform supporting both domestic and foreign delegate participation.
- Integrated Razorpay payment gateway for automated currency handling, payment verification, and delegate registration management.

5. Eurobond R&D Project

Tech Stack: Image Processing & Estimation Engineering

- Researched and built an architectural visualization tool for under-construction building images.
- Developed modules to strip background noise/unwanted visual elements, fitting aluminum composite panels (ACP), and generating accurate layout estimations and BOM reports.
